

Spencer Wagner
CS290 – Section 401
Project Proposal

Theme: Outdated media format shop (VHS, LaserDisc, Cassettes, etc.)

Pages: Homepage, stock page, item page, about page

Common:

Header with buttons to navigate to the four pages

Footer with links to LinkedIn and Github, etc.

Homepage:

This page will have an automated carousel of images

Item Page:

This page will just be a placeholder for now, not necessarily dynamic with selection from the stock page (time dependent)

- Includes a button to add the item to cart
- Download button for the product images

Stock Page:

Page includes several items for purchase, will full website functionality, clicking on an item would navigate to an item page, but for this assignment, the items won't navigate to anything.

- Includes a scroll bar

About Page:

Includes a blurb about the website and contact information for the page owner

- Includes a form to submit data (a complaint box with user's contact information)
- About blurb is a small box that scrolls

The next four pages of this doc show the layout of each page (colors not final)

Some image

Carousel of images (products), auto scroll animation
